Short Sea Shipping News from Maritime Advisors LLC: DC Legislative Update

Mark Yonge of Maritime Advisors LLC provides a timely update on Shortsea Shipping related legislation

We received Mark Yonge's Short Sea Shipping News e-newsletter today. I thought it was timely, well put together and chock full of interesting and useful information. Of particular note was the matrix of Short Sea Shipping related legislation included in that e-mail. Mark graciously agreed to share it with us in .pdf format and MarEx has linked that data below. Click [HERE](#) to see the legislative status report provided by Maritime Advisors LLC.

MARITIME ADVISORS is a diversified transportation consulting group based in Ft. Lauderdale, Florida, with a highly select network of professional affiliate consultants located primarily throughout the United States, with several additional MTLA affiliates in Sweden and the United Kingdom. MARITIME ADVISORS have assisted U.S. government agencies, port authorities and private sector clients with port management and operations studies, transportation logistics, government and industry relations, transportation business opportunities, trucking and rail operations, short sea shipping feasibility studies, financial modeling and carrier freight route development. Mark Yonge is Managing Member – he can be reached at mark.yonge@maritimeadvisors.com. On the Web: <http://www.maritimeadvisors.com>
